

Verband der Züchter des Holsteiner Pferdes e.V.
North American Breeding District

DNA KIT ORDER FORM

Please use this form to order a DNA kit for your Holsteiner horse without registration paper or passport.

You will receive the DNA kit with instructions by email. This email includes the invoice for the DNA testing. DNA testing costs 60 Euro (around \$63 depending on the daily exchange rate).

Payment options (listed in email) include:

- Credit card
- PayPal
- Wire transfer (via TransferWise)
- Check

The test is performed by the Veterinary Genetics Laboratory UC Davis in California. The laboratory creates a DNA profile for your horse and searches for an identical DNA profile. Your horse can only be identified if its DNA profile matches an existing one.

Please complete the form and send to hoffmann@holsteiner-verband.de.

Please attach photos of the horse and its brand if possible.

Name of horse: _____

Registration and/or brand number: _____
